17	ACC179C	AUSTIN HEALEY SPEEDOMETER CLOCK

No. Part No. Description

These clocks are ideal for the classic car enthusiast. The artwork recreates the original look and feel of the Austin Healey speedometers, and then each clock is individually printed, framed and hand finished.

The clocks run on a precision German quartz movement powered by a single AA battery*.

They are framed under glass in smart wood frames and the hands are chromed metal with a fine steel second hand.

A collectable timepiece for your home or garage.

*Battery not included.
