We pride ourselves on being able to offer our customers the ultimate in quality and authenticity when it comes to your upholstery needs. Our manufacturing processes are as original as we can possibly make them and we source only the best materials which do justice to these magnificent cars.

This means that along with the skills of our highly qualified machinists, we are able to offer specially customised seat covers for those looking for something a little different along with original colours from our extensive range of stock.

Our in-house upholstery service means that all of the hard work trimming these seats is done for you by professionals leaving you to just bolt the seats in place. If you require material or colour samples, please give us a call and we will be happy to post them to you.
