Brand new instruments are not always easy to come by, so we can offer you the choice to exchange your old instrument for an identical; reconditioned one.

We will send you a reconditioned unit* at the listed price; plus a surcharge which will be refunded to you once we have received your old unit.

Alternatively we can have your old unit reconditioned and returned to you. This process normally takes six to eight weeks.

Contact our sales team for more details.
